

# Blaze Sic Bo Gaming Tables

It's Sic Bo, only better! TCSJOHNHUXLEY's Blaze for Sic Bo brings added excitement to this already popular game. Using the latest LED Surface Technology, Blaze brings stunning game animations to life through the gaming layout, making tables stand out on the gaming floor and exciting new and old players alike.

## Features & Benefits

- Patented technology to deliver stunning in-game video animations
- Brings additional attraction and excitement to the table for both new and existing players
- Assists with dealer accuracy and highlights winning bets for added security
- Acrylic layout gaming surface
- Countdown timer indicates betting period
- Offered in two sizes - 56 Bet or 106 Bet for single or double-ended tables
- Compatible with TCSJOHNHUXLEY's Dice Shaker and Winning Number Displays

## High-Impact Illuminated Playing Surface

Sic Bo Blaze features patented LED Surface Technology, which brings excitement to the gaming floor. Players and gaming staff instantly benefit from seeing all winning numbers and sections of the Sic Bo Blaze game layout clearly highlighted. For further impact, game attract sequences automatically run until no more bets is signalled by the system. With the improved visibility of winning sections, pit bosses and security staff can also easily monitor game procedures from a distance.

Sic Bo Blaze tables also have the option to feature a countdown clock with large format numbers to clearly illustrate the end of the betting period. Whichever option you choose, Blaze has proven to be a fun and exciting addition to any gaming floor.

## A Range of Styles and Finishes

As with all our tables, Blaze Sic Bo Tables are available in a wide range of finishes to suit your requirements. For further flexibility, operators can choose from two sizes - 56 Bet or 106 Bet for single or double-ended tables.

## Ease of Maintenance

Unlike traditional illuminated Sic Bo tables that consist of a lightbox with many individual light bulbs that require regular replacement, Blaze LED Surface Technology is energy efficient and has many thousands of hours operating life. Game play is uninterrupted and regular maintenance limited.
