# How To Play

## Golden Sovereign

### Overview

Golden Sovereign is an innovative and exciting new side bet that is set to revolutionise the game of Roulette.

Easy to play and understand, Golden Sovereign consists of two stages and is played alongside the traditional game of Roulette. The first part is where players place a side bet on the Golden Sovereign Racetrack which gives them the chance to win Sovereigns.

Once a Sovereign has been won, in the second stage, it can be staked during normal Roulette game play on any Straight-Up number position at enhanced odds of **120 for 1**.

## Rules of the Game

### STAGE 1 – Earning Golden Sovereigns

1. At the start of the game the Golden Sovereign Racetrack is locked.
2. To play the Golden Sovereign side bet, players must first place a bet(s) on the standard Roulette layout before the Golden Sovereign Racetrack can be unlocked.

3. Once unlocked, the player can place a Straight-Up wager on a number position on the Golden Sovereign Racetrack.

4. Once all bets are placed the dealer then spins the wheel. When the ball lands in the pocket, there are three different winning outcomes on the Golden Sovereign Racetrack, using neighbours to 2 places.

# Pay Outs

**Straight-Up – 5 for 1**

**Inside Neighbour – 2 for 1**

(One position either side of the winning number on the racetrack)

**Outside Neighbour – 1 for 1**

(Two positions either side of the winning number on the racetrack)

5. If a player wins, the stake is removed from the Golden Sovereign racetrack and will be paid in Sovereigns according to the Pay Table.
6. If a player chooses to cash out, each Sovereign cash value is set to a value determined by the minimum bet value of the game.

## STAGE 2 – Staking Sovereigns

1. Once a player has earned Sovereigns they can place the Sovereign on Straight-Up betting positions on the main Roulette layout to win at odds of **120 for 1**.
2. Players do not need to place standard chips on the main Roulette layout.
3. Once all bets are placed the dealer then spins the wheel. When the ball lands in the pocket, a player wins if they have staked Sovereign(s) on the winning number.
