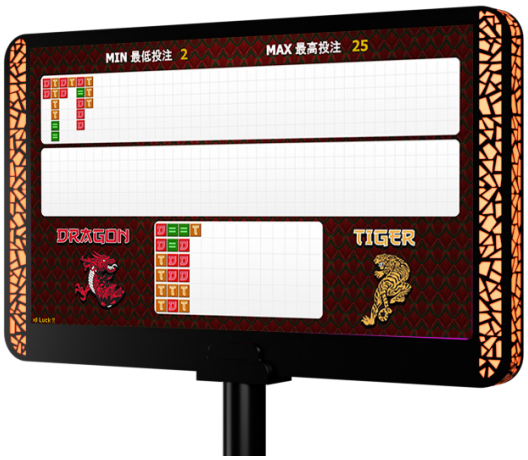
Ora Luxe Casino Table Display

Ora Luxe is a stunning display that combines luxury with functionality. Its elegant frame features laser-cut designs and inset LEDs that can be finished in brush metallic, and gold or black powder coat paint. Ideal for Baccarat, Poker, and Progressive games. Ora Luxe is available in 27" and 32" landscape screen sizes.



Features & Benefits

- Suitable for Baccarat, Poker and Progressives
- Visually striking laser-cut frame with inset LEDs and choice of gold or black finish.
- Double-sided screens to attract more players to a table and increase marketing potential
- Dynamic Display System provides multiple skin options
- Display winning numbers, game statistics, advertising, and video animations.
- Available in standalone or networked, which allows centrally controlled graphic content, media scheduling and streaming
- Graphics and animations can be configured using winning numbers, stats, advertising content and video
- Multiple language and currency options
- Customisable LED strips for game status, trends, and promotional content

Ora Luxe with Camera Cut-Out

Ora Luxe can incorporate an in-built camera, providing extra security at the table. Featuring all the benefits of Ora Luxe, the Ora Luxe with Camera Cut-Out incorporates a security camera built into an attractive sweeping frame.

Available in 27" and 32" screen sizes and a variety of colours, the camera cut-out provides a stylish and aesthetically pleasing option, whilst providing peace of mind to operators.

High Impact Design & Graphics

Ora Luxe LEDs can reflect Baccarat trends, show table minimums or cycle through an array of attract modes for players. Furthermore, variable high impact graphics can be configured through the Dynamic Display System. This allows a plethora of variable graphics and animations to be configured in numerous combinations allowing winning numbers, stats, advertising content and video to be displayed exactly how the operator requires.

Flexible and Easy to Control

Like all **TCS**JOHNHUXLEY Displays, Ora Luxe can be standalone where features are altered individually at the table, or networked to allow changes to be made from one central point to every display across the gaming floor.
