

# Ora Curve Winning Number Display

Ora Curve features double-sided landscape curved screens along with a sweeping line of integrated LED's providing excellent visibility from multiple angles right across the gaming floor. Available in 27" and 32" landscape screen sizes with a variety of colours, there is no chance players will miss any of the action on these displays.

## Features & Benefits

Suitable for Baccarat, Poker and Progressive games

Double-sided display to attract more attention to a table and increase marketing potential

Striking LEDs across a curved frame that identify game results

Automated attract sequences and live winning number statistics

Adaptive display screen graphics and multiple skin options

Available in standalone or networked, which allows centrally controlled graphic content, media scheduling and streaming

Built-in camera for additional security

Graphics and animations can be configured using winning numbers, stats, advertising content and video

Multiple language and currency options

## High-Impact Graphics

High impact graphics can be configured through the Dynamic Display System. This allows a plethora of variable graphics and animations to be configured in numerous combinations allowing winning numbers, stats, advertising content and video to be displayed exactly how the operator requires.

With the choice of various languages, currency symbols and ticker tape messaging, the Ora Curve provides all the information your players will need.

## Striking LEDs

Ora Curve features a range of striking LEDs that clearly identify the last baccarat game results on its elegant curved frame. Ora Curve features a range of striking LEDs that can display current and historical winning results. The LED segments are individually separated so that multiple results can be displayed on the LED bar at the same time.

## Added Security

Ora Curve incorporates a security camera built into an attractive sweeping frame. This camera cut-out provides a stylish and aesthetically pleasing option, whilst providing peace of mind to operators.

## Flexible and Easy to Control

Like all TCSJOHNHUXLEY Winning Number Displays, Ora Curve can be standalone where features are altered individually at the table, or networked to allow changes to be made from one central point to every display across the gaming floor.
