

# Saturn™ Triple Zero Roulette Wheel

Featuring a unique thirty-nine pocket design, the Saturn™ Triple Zero Roulette Wheel offers players an exciting additional bet, and operators can choose various placement options around the number ring, including the opportunity to include the casino's logo instead of the 000.

## Added Excitement for Players

The Saturn™ Triple Zero Roulette Wheel features a unique thirty-nine pocket design offering players an exciting additional bet, whilst providing operators with a higher House Edge. This allows the casino to offer a lower minimum bet whilst still keeping the game profitable.

## Features & Benefits

Thirty-nine pocket design (000) that can be branded to highlight a symbol or casino logo

Provides operators with a higher House Edge

Allows the casino to offer a lower minimum bet whilst keeping the game profitable

Saturn™ Data Logger allowing for the detection of winning number results and patented Drop Zone Detection, highlighting non-random results and drop zone bias

Three discreet embedded sensors to detect winning numbers quickly and accurately

Master craftsmanship design and build with over 130 quality control checks

Available in a full range of colours and veneers, with either a standard or patented Starburst® separator ring

Custom designs available

Communicates with other third-party applications

Compatible with other TCSJOHNHUXLEY products including the Winning Number Display range

Fully customisable through our Roulette Wheel Configurator

## Distinctive Design

The Saturn™ Triple Zero Wheel allows various placement options around the wheel as well as the possibility to include your casino's logo instead of the 000. The Saturn™ Triple Zero Wheel provides a distinctive feature to your gaming floor.
