World-Class Craftsmanship

With a long history of crafting the world's finest live gaming tables, TCSJOHNHUXLEY expertly manufacture each table with a mix of precision engineering and master craftsmanship, resulting in a stunning and technologically advanced gaming tables. The collection of scaled-down tables have been designed to incorporate all the same components as standard size tables but will provide operators with the ability to place more tables on the gaming floor, if so required.

As with all TCSJOHNHUXLEY tables, a variety of finishes and styles are available to match the casino's décor or brand requirements.

Integrated Technology

TCSJOHNHUXLEY has always been at the forefront of incorporating cutting edge table gaming technology and electronics into traditional gaming tables. From seamlessly integrated electronics for displays, table signage and dealer consoles, technological innovation is at the heart of what TCSJOHNHUXLEY does.

Space Saving Gaming Tables

These space saving tables are ideal for the iGaming sector with online studio set-ups as they incorporate a much smaller footprint that does not impact on the game.

The Roulette Gaming Table can easily incorporate a standard size Roulette Wheel and Chipper Champ with the number grid taking up most of the tabletop.
