How To Play Raise 'Em Poker Xtreme

1. After placing an initial Raise 'Em Poker Ante, the player must also place a wager on the flashing bet sensor.
2. Regular Raise 'Em Poker gameplay will commence and if the player holds a Straight Flush, Four Of A Kind, Full House, Flush or Straight, they win according to the Pay Table. The side bet loses if any other combination is dealt.

Supernova Overview

Supernova is a Progressive Game Jackpot System that is available for any table game. This unique system provides operators with the flexibility to configure multiple customised progressive jackpots and patented mystery prizes, to enhance any base game. If one jackpot is won, the others remain in play (and don't reset) until they are also won. This keeps the excitement building and players at the table for longer.

Operators can customise frequency and value, even setting floor-wide jackpots for life-changing prizes.
