- Enhances player experience and accessibility

## Enhance Your Blackjack Game

Revolutionise your Blackjack tables with our cutting-edge display, designed to ignite player excitement and elevate the entire gaming experience. The Ora Blackjack Vue Display Controller seamlessly integrates with TCSJOHNHUXLEY's Ora Luxe Winning Number Display, delivering real-time data and insights that make Blackjack more accessible and enjoyable for every player, regardless of skill level. This innovative technology empowers both novice and experienced players, transforming each hand into a dynamic and engaging event. By showcasing key game information, from dealer hand history and live dealer odds to historical stats and lucky numbers, our display keeps players informed and immersed in the thrill of the game.

Experience the future of Blackjack with fully automated card recognition. Leveraging the built-in camera of the Ora Luxe display, our system eliminates manual card entry, ensuring a smooth and uninterrupted game flow. This advanced technology not only enhances the pace of play but also ensures accuracy, allowing players to focus on strategy and the excitement of the game. From highlighting winning streaks and side bet frequency to providing real-time data and insights, our display adds an extra layer of engagement, making every hand a truly unforgettable experience. Bring the same player engagement benefits enjoyed on your Roulette and Baccarat tables to your Blackjack offering and watch the excitement unfold.

Table facing camera required to read the cards
